To Whom It May Concern,

This is to certify that I, the undersigned, have thoroughly reviewed and verified that all the required documents related to the project titled:

"Securo-Guard (E-Commerce Fake Review Detection Application) "

have been successfully uploaded to the designated GitHub repository.

- **GitHub Repository URL: https://github.com/Fkmentor21/Securo-Guard-**

- **Team/Student Name(s): Hafsa Nisar , Faarah Khan**

- **Department: Department of Computing, FEST**

- **Institution: Hamdard University**

The uploaded materials include (but are not limited to):

- Project source code

- Project report/documentation (Proposal/SRS/SDS/Report/Test Plan)

- Presentation slides

- Dataset(s) (if applicable)

- Poster/Video of Demo

- Any supporting files as required by the submission guidelines

I confirm that the submission complies with the documentation requirements outlined for this project/course and is accessible on the mentioned repository.

This certificate is issued for record-keeping and official use as part of the project evaluation or academic requirements.
